

Subject: Consultation Request: Patient - Sarah Thompson (Patient ID: 004512)

Dear Dr. Lee,

I am writing to consult with you regarding my patient, **Sarah Thompson** (DOB: 03/14/1983, Patient ID: 004512), who was admitted to Hospital One on June 3, 2025. She resides at 128 **Maple Avenue, Springfield, IL 62704** and can be reached at **(217) 555-0198**.

Presenting symptoms:

- High-grade fever (up to 103°F)
- Persistent chills
- Severe body aches
- Headache
- Mild cough

Medical history:

- Type 2 Diabetes
- Hypertension
- Penicillin allergy

Recent travel:

Sarah returned from a trip to **Dallas, Texas** on **May 28, 2025**.

Current medications:

- Metformin 500mg BID
- Lisinopril 10mg QD

Lab results:

- WBC: 13,500 /mm³
- CRP: 18 mg/L
- COVID-19 PCR: Negative
- Chest X-ray: Mild infiltrates in the right lower lobe

Given her recent travel and persistent symptoms, I am considering possible viral or atypical bacterial infections. I would appreciate your input on further investigations and management, especially regarding the need for additional imaging or infectious disease consultation.

Please contact me at (217) 555-0123 if you need any further details.

Best regards,

Dr. Emily Carter

Attending Physician, Hospital One

Dear Dr. Carter,

Thank you for your detailed summary regarding **Sarah Thompson** (Patient ID: 004512). Given her symptoms and lab findings, I recommend testing for atypical pathogens (e.g., Mycoplasma, Chlamydia pneumoniae) and considering a respiratory viral panel. Her recent travel to Dallas may also warrant evaluation for tick-borne illnesses.

I agree that an infectious disease consult would be beneficial. Please keep me updated on her progress. I am available at (312) 555-0177 if you wish to discuss further.

Kind regards,

Dr. Michael Lee
